

MARINE RESOURCE DIRECTORY Of Heritage in the Coastal Zone

Moore Group and Aengus Parsons have been commissioned by the Heritage Council to compile a Resource Directory on Heritage and related issues in the Marine, Coastal and Offshore zones. The brief will include natural and built heritage, folklore, folklife and traditional skills.

It is proposed that this directory would be available on the Internet through the Heritage Council website.

The objective of the study is to provide a tool and information source for those initiating or taking part in projects in the coastal zone, and who wish to inform themselves on heritage issues in the marine and coastal area. The target audience is local authorities, local community groups, other relevant organisations and agencies, and NGOs.

To this end we would be grateful for your contributions to the directory in terms of details of organisations, community groups, heritage forums related to this particular topic in your area.

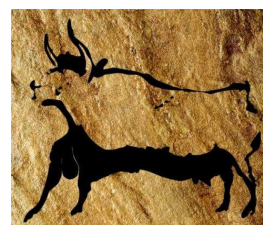

Relevant issues to be included:

- Heritage in the coastal zone: Providing links and collating where possible baseline information on designated areas, Record of Monuments and Places, Record of Protected Structures, Marine Protected Areas wrecks, folklore, folklife, traditional and heritage boats, vernacular features
- Coastline characteristics of Ireland: The heritage issues relating to the different types of coastline.
- Policy context: National Development Plan, National Spatial Strategy, Water Framework Directive, Habitats and Birds Directives, EU recommendation on ICZM, proposed EU Marine Strategy,

SUPPORTED BY THE HERITAGE COUNCIL

LE CUIDIÚ AN CHOMHAIRLE OIDHREACHTA
