SUDDEN DEATH.—A melancholy case of sudden death occurred at the Pike to-day. It appears that an old man named Denis Barry, residing in a street, off Westland-street, went out this morning to Mr Regan's at the Pike, where he had been engaged as a labourer in saving hay for some time past, with the object of receiving his wages, but on being told by some of his fellow-workmen that the hay-saving was to be continued again to-day, he immediately proceeded to work. Whilst thus engaged he was suddenly seen to fall, and it is feared that sunstroke was the cause. He was immediately conveyed to Mr Punch's licensed premises near the Pike, where, no doubt, an inquest will be held on Monday. On enquiring at the unfortunate man's residence to-day, we ascertained that he left it in his usual good health this morning. The deceased was aged over 60 years, and leaves a family.
